

Automation Tester

Job Overview :

We are looking for an experienced Automation Tester to join our Quality Assurance team. This role requires expertise in Java, Selenium, and Appium to design, develop, and execute automated test scripts for both web and mobile applications.

As an Automation Tester, you will play a crucial role in ensuring the quality and performance of our products across multiple platforms. You will collaborate with cross-functional teams to identify, test, and resolve issues early in the software development lifecycle, contributing to delivering high-quality applications to our customers.

Job Title : Automation Tester (Web & Mobile - Java, Selenium, Appium)

Location : Hyderabad

Job Type : Full-Time

Experience : 0-10 Years

Required Skills and Qualifications :

Experience :

- Proven experience as an Automation Tester for both web and mobile applications.
- Strong hands-on experience with Java programming language.
- Expertise in using Selenium WebDriver for web automation and Appium for mobile test automation (both iOS and Android).
- Familiarity with Continuous Integration (CI) tools such as Jenkins or GitLab.

Technical Skills :

- Proficient in writing automation scripts using Java and frameworks like TestNG or JUnit.
- Solid experience with Selenium for automating web applications, including handling dynamic web elements, synchronization, and browser interactions.
- Expertise in automating mobile applications using Appium for both Android and iOS.
- Familiarity with version control tools such as Git
